Dear Paul Stamoulis,

The Pirate leadership class would like to thank you for being our guest speaker. Thank you so much for the time and preparation you spent for our class. The things you spoke about were very meaningful. The proverbs that pertain to being a good leader you shared with us such as, wisdom helped us all understand the true meaning of being a leader. You made it personal to our own high school lives to explain further, the choices we have to pick our leader, as well as the example of "battle" we encounter when entering the real world. Everything you spoke about was ideal for our class. Thank you so much once again for your time spent in our class it was very memorable and very appreciated.
